12" Tower Ionizer with Turbo Fan

Thank you for purchasing the Air Innovations® 12" Tower Ionizer with Turbo Fan. This product comes with a 1 YEAR WARRANTY from the date of purchase as your satisfaction is our primary concern.

WHAT IT DOES?

The Air Innovations® 12" Tower Ionizer with Turbo Fan helps remove harmful pollutants from the air, using negative ion technology and safe levels of ozone to naturally deodorize the air. Creating a cleaner, healthier environment. This powerful Tower Ionizer comes with a large collection blade, and has an optional Turbo Fan **ON/OFF** feature. For best results use Turbo Fan when operating in a large room or in high odor environments.

TURBO FAN FEATURE

As indicated above, this ionizer comes with a Turbo Fan feature. This fan will increase the air flow circulation through the ionizer collection blade thus increasing the air cleaning effectiveness.

HOW DO I KNOW IT'S WORKING?

1. Lingering odors will slowly disappear - pet odors, cooking odors, smoke odors and other stale odors will slowly be neutralized so that in a day or so your room will smell outdoor fresh and the air will feel lighter and cleaner.
2. Wait approximately 2-3 weeks and wipe down the collection blade with a clean damp white cloth. Depending on your air quality before you installed this product, the cloth should be slightly dirty to filthy dirty. **NOTE:** The collection blade is made of stainless steel and may be similar in color to dust particles and other airborne pollutants and allergens. Hence, wiping the blade with a clean damp white cloth and inspecting the cloth may be the only way you can tell it is dirty.

WARNING-TO AVOID ELECTRIC SHOCK

- **UNPLUG** the Ionizer before removing the stainless steel collection blade.
- **DO NOT** use the Ionizer outdoors or near water.
- **KEEP** the ionizer away from water.
- **DO NOT** attempt to dismantle the Ionizer.

MADE IN CHINA

HOW TO OPERATE

Turn unit on by pressing the **ON/OFF** button once for light cleaning and everyday usage.

Turn Turbo Fan on by pressing the **FAN** button once when operating in a large room or in high odor environments.

Turn the unit off by pressing the **ON/OFF** button once.

IMPORTANT- Proper cleaning & maintenance is necessary to prolong the life of this product.

- Clean collection blade every 2-3 weeks
- Clean fan monthly

CLEANING INSTRUCTIONS & GENERAL MAINTENANCE

CAUTION: UNPLUG the unit before removing the collection blade

Once the unit is unplugged, remove the collection blade from the back of the unit. See illustration. →

TO CLEAN:

Simply wipe the collection blade with a clean damp white cloth or place the collection blade on the top rack of your dishwasher.

GENERAL MAINTENANCE

Fan:

Air Innovations® 12" Tower Ionizer with Turbo Fan will pull dust and other airborne particles from the air. It is important to clean the fan every 1-2 months or as often as necessary to have years of continuous use. Use either canned air (air duster) or air compressor and blow on the fan until it is clean.

Casing:

A damp cloth and mild detergent may be used to wipe the outside of the Air Cleaner & Ionizer.

The Air Innovations® 12" Tower Ionizer with Turbo Fan comes with a 1-year manufacturer's warranty. If this unit should become defective within 1-year from the date of purchase, or if you have any questions or comments or regarding replacements for any of our products, please contact us directly at:
